

Abdelrahman Mohamed

Front-End Developer

abdelrahman.mohamed8568@gmail.com | LinkedIn | GitHub | Portfolio | 01110828568 | Cairo, Egypt

Summary

A passionate React.js/Next.js developer focused on building fast, responsive, and easy-to-use user interfaces. I have a keen eye for user experience, writing clean, maintainable code, and improving performance. I am seeking a full-time position within a product development team to deliver tangible impact and solve complex user problems.

Professional Experience

TOT Platform

Front End Web Developer (10/2025 - Now)

- Built and maintained responsive web interfaces, ensuring cross-browser compatibility and optimal performance.
- Collaborated with design and back-end teams to transform UI/UX blueprints into clean, scalable code.

Freelancer

Front End Web Developer (2/2023 - Now)

- Developed and implemented engineering standards for web development.
- Implemented responsive design principles to enhance user experience.

Market Makers

Technical Support Specialist (12/2022 - 10/2025)

- Provided technical support to troubleshoot systems.
- Documented troubleshooting steps and solutions for future reference.

Attijariwafa Bank

Loan Officer (7/2022 - 12/2022)

- Trained and mentored new sales representatives.
- Collaborated with cross-functional teams to optimize sales processes.

Projects

Aura Beauty [🔗](#)

E-Commerce Website

A full-featured e-commerce platform built with Next.js for a fast and SEO-friendly experience. I implemented Redux Toolkit for efficient state management and integrated Supabase to handle all product and order data. The front end was styled with Chakra UI, featuring smooth GSAP and Framer Motion animations to enhance the user experience.

pixel

E-Commerce Website

A professional e-commerce store for smart devices built with Next.js, ensuring fast performance and search engine optimization. The focus was on making it easy for users to find the products they are looking for, while implementing and developing the UI/UX designs in collaboration with the UI/UX design team.

GitHub: [Private repository](#)

Noya

E-Commerce Website

A premium fashion e-commerce with Next.js, ensuring SEO-friendliness and responsiveness. Worked closely with the backend team for database integration and implemented pixel-perfect UI/UX from Figma designs.

Five Palm Jumeirah

Landing Page

A high-fidelity hotel website crafted to provide an immersive user experience. Built with Next.js, the site features seamless navigation and a visually-rich design. I used Framer Motion and Swiper.js to create engaging animations and interactive carousels, while React Player was integrated for video content.
